entrysystemsaustralia.com.au

The Challenge for Clubs

- **No easy court booking method**
Members can't book online — courts sit empty.
- **Manual keys & RFID Cards**
Keys and cards get lost, shared or cloned — a security and admin nightmare.
- **Lighting waste**
Courts lit all night or players arrive to darkness.
- **No revenue from casuals**
Public players can't access or pay for courts.

The CAMS Solution

- Real-time online booking — any device, any time
- Unique PIN codes via SMS — no keys, no RFID cards
- Automated lighting — on when booked, off when done
- Revenue from public bookings — new income stream
- Full admin control — pricing, hours, block-outs
- Built in Australia, by players for players
- 24/7 local phone support — real people, real answers

Four Tiers — One Platform. Start Simple. Scale Anytime.

Tennis, pickleball and padel clubs — choose the tier that fits today, upgrade any time.

01

CAMS Booking Calendar

Online court booking for indoor and outdoor clubs — software only, no hardware required.

Best for: Tennis, pickleball, padel and multi-sport clubs — any club wanting to go digital

Online Booking Calendar

Real-time availability for members and the public.

Member Management

Free access for members, paid rates for public players.

Website Integration

Embed the booking calendar into your existing website.

SMS PIN Confirmation

Unique PIN sent instantly on booking confirmation.

Admin Dashboard

Manage pricing, hours, block-outs, and availability.

AWS Cloud Platform

Secure, reliable, always-on. No servers to manage.

Software only — No gates, no hardware. Perfect starting point for any club.

02 CAMS + Smart Gate Access

Everything in Tier 1, plus wireless electronic gate locks — no conduit, no cables required.

Best for: Outdoor tennis, pickleball, padel and sports clubs with court gates

All Tier 1 Features

Full booking calendar and member management.

Unique PIN Gate Entry

SMS PIN opens the gate. No keys, no static codes.

Instant Active PIN

Access code works immediately after booking.

Wireless Electronic Lock

Latest hardware — fits your existing gate.

No Conduit Required

Wireless technology — no digging, no cabling.

Turnkey Installation

No hidden costs. Most clubs are live within days.

Most popular for Australian tennis, pickleball and padel clubs.

03

CAMS + Gate + Lighting Automation

The complete outdoor solution — booking, gate access, and automated lighting in one system.

Best for: Tennis, pickleball and padel clubs with floodlit courts needing full automation

All Tier 2 Features

Full booking calendar and gate access.

Auto Sunset Feature

Lights activate automatically at sunset. Manually adjustable to turn on for any set period prior.

Lighting Curfew Control

Set cut-off times to protect neighbouring residents.

Automatic Lights On & Off

Lights follow every booking precisely — on at start, off at end. Zero energy waste.

Day & Night Pricing

Charge different rates for lit evening court bookings.

Light Status Dashboard

Admins can monitor and override lights remotely.

Complete outdoor solution — booking, access, and lighting fully automated.

04

CAMS Enterprise

Multi-site management for councils and large operators running multiple facilities.

Best for: Local councils, associations, and operators managing multiple venues

All Tier 3 Features

Complete booking, gate, and lighting automation.

Advanced Reporting

Usage, revenue, and court occupancy analytics.

Priority Support

Dedicated onboarding and ongoing support team.

Multi-Site Management

Manage multiple venues from a single dashboard.

Custom Configuration

Tailored setup for complex operational requirements.

API Integration

Connect with existing council or association systems.

Councils & large operators — manage multiple venues from one platform.

Built for Tennis, Pickleball & Padel Clubs of All Sizes

Fully Configurable

Set pricing, hours, peak rates, member vs public access, coach modes and curfews.

Future-Proof Hardware

Latest wireless locks. No outdated cabling. Platform updates automatically.

Zero Conduit Required

Wireless-first design — no digging, no cabling from gate to clubhouse.

Automated Lighting

Lights on/off precisely with bookings. Zero waste, zero manual effort.

24/7 Local Phone Support

Real Australian staff available any time. No overseas call centres, no chatbots.

Instant SMS PIN Access

Unique PIN delivered by SMS on booking. Active immediately — no waiting.

500+

Courts managed across Australia

99.9%

Cloud platform uptime guarantee

24/7

Online booking — always available

Trusted by Clubs Across Australia — Tennis, Pickleball & Padel

Wandana Heights Tennis Club

Installed August 2021

"We cannot thank Entry Systems Australia enough. Members can book from home, play under lights at their choosing, and our volunteers are freed from endless scheduling. Membership has increased and we are generating new revenue from the public using our courts monthly. A huge bonus."

Rohan Perot, President

Warrnambool Lawn Tennis Club - winner most outstanding club VIC 2024

Installed February 2024

"Warrnambool Lawn Tennis Club installed ESA in the beginning of 2024 – ours is a complex situation with multiple access points across a vast area, club members accessing the facility, and coaching clients who are not necessarily members of the club accessing the facility. The revenue from casual court hire has become a regular and valuable income stream for our club and has the potential to increase with appropriate marketing. The monthly reporting on the usage of the courts provides effective data that will assist the club with future planning decisions. The system is supported well by Martin who is only ever a phone call away."

Kim Tobin, President

Queenscliff Pickleball Club

Installed May 2025

"Queenscliff Pickleball Club has operated a gate security and booking system supplied and installed at its courts by Entry Systems Australia for nearly 12 months. The Entry Systems product is very much fit for purpose and extremely simple to operate. In that time we have enjoyed exemplary service from Entry Systems and the funds received through the booking system have regularly entered our bank account. I highly recommend Entry Systems Australia and their product to those looking to secure their pickleball courts but at the same time provide access for use."

Peter Brown, President

Southern Peninsula Pickleball Club

Installed December 2025

"The Entry Systems gate at our Safety Beach courts helps us generate income for the Club 'while we sleep'. Players hire courts through the Gate Systems portal which is seamlessly integrated into the Club website. Hirers receive a unique code on their phone when they book, without the club needing to do anything. We can easily reserve times in the calendar for club sessions, tournaments and coaching, where the gate is programmed to open automatically. It takes a little administration to get things going and then you just wait for the monthly revenue report to come through from Entry Systems. Highly recommend if you're wanting to generate pickleball court hire revenue for your club, the easy way!"

Ray Langenberg, President
